a corporation, et al.,)	ON CERTAIN PERSONS AND ENTITIES
)	
Defendants.)	
_____)	

The United States of America (“United States”), on behalf of itself and the Walker River Paiute Tribe (“Tribe”), submits this Report related to its service efforts on persons and entities subject to service under the *Case Management Order* (Apr. 18, 2000, Doc. B- #108) (“CMO”). This is the nineteenth such Service Report that the United States has prepared in this action. This Report updates the Court and all parties of the service activities accomplished since the Eighteenth Report. The United States request that any comments or objections with respect to this Report be submitted within thirty (30) days of the submission of this Report. The United

States also invites any party to contact counsel for the United States anytime prior to the deadline for comments and objections to discuss any concerns regarding this Report so that corrections might be made promptly and without the need for additional filings. In conjunction with this Report, the United States asks the Court to approve certain service efforts, to amend the caption related to this phase of service, and to make corrections and additions. The United States will submit a Proposed Order to the Court thirty (30) days from the submittal of this Report.

The instant filing focuses on a portion of those persons and entities subject to service under Paragraph 3 of the CMO: “All holders of surface water rights under the laws of the States of Nevada and California in the Walker River Basin who are not presently parties to this adjudication.” The instant filing contains the remaining responses to service on persons and entities for rights outlined in Paragraph 3 of the CMO. The United States is preparing a Proof of Service for those persons and entities that required personal service. At this time, all rights outlined in Paragraph 3 of the CMO that are known to the United States, have been accounted for and made parties to this action.

As with the previous Service Reports, this Report includes a large set of exhibits comprised of all documentation in the United States’ possession concerning service efforts on each person/entity identified. The instant pleading is organized into three sections:

- 1) basic service responses (paragraphs 1 - 8);
- 2) needed dismissals (paragraphs 9 - 12); and
- 3) changes/corrections of address (paragraphs 13 - 15).

Exhibits are numbered to correlate to the numbered paragraphs below associated with a single person/entity (*i.e.*, Exhibit 1 relates to the discussion of the defendant associated with paragraph 1). For each defendant addressed, the United States has attempted to identify all service

categories in the CMO relevant to that defendant. To the extent that corrections or additional or changed parties appear appropriate, those are discussed in connection with the listing as originally identified in the case caption.

This Report with all exhibits has been served on all persons and entities receiving E-service in this sub-proceeding through the Court's CM/ECF system. Otherwise, the United States will serve this Report in the same manner as previous Service Reports: persons and entities addressed in this Report not registered for E-service will receive a copy of this Report and exhibits that concern their service activities. In addition, upon request, the United States will provide any person/entity with copies of any additional exhibits they wish to obtain.

The United States has not yet provided the Court with a proposed amended Caption, but is prepared to do so after the Court addresses the requests stated herein. The United States recognizes that if the Court dismisses certain individuals and entities from the case, as the United States has requested, the final Certificate of Service attached to this document will change as well. In some cases where the United States has requested dismissal, the United States has no forwarding address because this information is not on the recorded deeds of transfer.
